From Robotic Automation to Stretch Wrappers to Conveyors .. Kaufman is the simple choice!

For over 60 years, Kaufman Engineered Systems has been a pioneer in complete line automation. We have a reputation for our single-source convenience, responsive service and unmatched equipment performance.

ROBOTIC PALLETIZERS/DEPALLETIZERS

- Bulk, full layer
- Bag
- Carton
- Combo
- Case
- Plastic container
- Glass container
- Roll handling

FANUC ROBOTIC CASE PACKING

- High-speed packaging of products
- Adjustable end-of-arm tool solutions
- Decrease packaging process footprint

HIGH SPEED ROBOTIC PICKING AND PLACING

- Maximize flexibility with visions systems or line tracking
- Various lightweight and compact robot models for repeatability and speed
- Food grade robot versions

CONVEYORS

- Roller
- Chain
- Mat-top
- Belt
- Case
- Hi-low
- Lift and Turn
- Turntable transfer

TRANSFER CARS

- Move product to and from multiple lines
- Deliver loads to workstations, transfers loads from multiple palletizers to a common stretch wrapper
- Reduces amount of equipment required, the initial investment and maintenance costs

STRETCH WRAPPERS

- Overhead wrapper (The SXP series)
- Turn table wrapper (The EXPA series)
- Horizontal wrapper (The SRPA series)

MATERIAL HANDLING

- Dual load stackers
- Pallet dispensers
- Pallet stackers
- Poly sheet feeder
- Robotic machine loading
- Robotic labeling
